

A Resource Guide

On June 1, 2010, Magellan Health Services implemented a national Medication-Assisted Treatment (MAT) intervention to battle substance use disorders. The MAT intervention focuses on increasing the appropriate use of proven medications as part of the discharge treatment plan for members completing inpatient treatment for a primary Alcohol and Other Drugs (AOD) diagnosis.

The following resources provide useful information with which to educate consumers, substance abuse counselors, mental health therapists, social workers, physicians, courts, or others about MAT.

- SAMHSA Health Information Network (SHIN) of the United States Substance Abuse and Mental Health Services Administration (SAMHSA): www.samhsa.gov/SHIN
- CSAT's Division of Pharmacologic Therapies (DPT): www.dpt.samhsa.gov
- CSAT's Buprenorphine Information Center: www.buprenorphine.samhsa.gov
- National Alliance for Medication Assisted Recovery (NAMA): www.methadone.org
- National Alliance of Advocates for Buprenorphine Treatment (NAABT): www.naabt.org
- American Association for the Treatment of Opioid Dependence, Inc. (AATOD): www.aatod.org
- NIATx: <http://www.niatx.net/Content/ContentPage.aspx?PNID=2&NID=256>
